COVID-19 Update – Pop-up Clinics

FOR IMMEDIATE RELEASE

Next week’s Pop-up Clinics. All clinics are now available for walk-in and registration.

“We are happy to be able to continue providing the Pop-up Clinics to our Genesee and Orleans County residents,” stated Paul Pettit, Public Health Director for GO Health. “As a reminder the Pfizer vaccine is for anyone 12 years old and older. Moderna and Pfizer are two doses and Johnson & Johnson (J&J) Janssen vaccine is a one and done vaccine. People are considered to be fully vaccinated after 2 weeks following their last dose of the 2-series vaccines and 2 weeks after the J&J vaccine.”

Pfizer, J & J and Moderna clinics offer walk-in opportunities; however, we encourage you to register via links below and choose the vaccine that best works for you to guarantee your dose and make your appointment quick and easy. Walk-ins are available on a first come, first serve basis. You can also click on the direct links in the grid below.

For those who do not have internet they can call the GO Health Vaccine Registration Help Lines:

- Genesee: 585-815-7168
- Orleans: 585-589-3170

These lines are ONLY to make vaccine appointments, are not able to answer COVID-related questions, and are not associated with either Health Department.

“As more people to get vaccinated we are seeing people enjoy activities with fewer restrictions,” stated Pettit. “There continue to be plenty of options to get any of the three vaccines offered.”

“Healthy People in a Healthy Community”

The Genesee Orleans County Health Departments (GCHD/OCHD) uses 4 types of documents to provide important information to medical and public health professionals, and to other interested persons.

Health Alerts convey information of the highest level of importance which warrants immediate action or attention from New York health providers, emergency responders, public health agencies, and/or the public.

Health Advisories provide important information for a specific incident or situation, including that impacting neighboring states; may not require immediate action.

Health Guidance contain comprehensive information pertaining to a particular disease or condition, and include recommendations, guidelines, etc. endorsed by GCHD/OCHD.

Health Updates provide new or updated information on an incident or situation; can also provide information to update a previously sent Health Alert, Health Advisory, or Health Guidance; unlikely to require immediate action.

If you are a business/church/organization that is interested in hosting a vaccination clinic at your location, please fill out the survey: <https://www.surveymonkey.com/r/GOHealthPopUpVaccineClinic>. One of our staff members will be in contact with you.

For those who are seeking testing, both health departments provide limited free rapid testing for those without symptoms at the respective Health Departments. For Genesee County, a rapid test drive-through clinic is scheduled for June 10th 1:15 p.m.-2:15 p.m. at County Building #2, 3837 West Main St. Road, Batavia. For Orleans County, a rapid test clinic is scheduled for June 10th 10:00 a.m.-10:30 a.m. at the Orleans County Health Department at 14016 Rt. 31 West, Albion.

To register for testing for the Genesee Test Clinic: <http://bit.ly/GeneseeTests>. To register for the Orleans Test Clinic: <https://bit.ly/OCHDRapidTest>.
