Brenden A. Bedard, MPH  
Deputy Public Health Director

## NEWS RELEASE FOR IMMEDIATE RELEASE

**CONTACT:** Kaitlin Pettine, MPH  
Public Health Educator / Public Information Officer  
Paul Pettit, MSL  
Public Health Director  
**PHONE:** (585) 344-2580 x5555  
**DATE:** 02/08/2022

The Genesee Orleans County Health Departments (GCHD/OCHD) uses 4 types of documents to provide important information to medical and public health professionals, and to other interested persons.

**Health Alerts** convey information of the highest level of importance which warrants immediate action or attention from New York health providers, emergency responders, public health agencies, and/or the public.

**Health Advisories** provide important information for a specific incident or situation, including that impacting neighboring states; may not require immediate action.

**Health Guidance** contain comprehensive information pertaining to a particular disease or condition, and include recommendations, guidelines, etc. endorsed by GCHD/OCHD.

**Health Updates** provide new or updated information on an incident or situation; can also provide information to update a previously sent Health Alert, Health Advisory, or Health Guidance; unlikely to require immediate action.

### Genesee County at-home COVID-19 test kit and mask distribution

#### For IMMEDIATE RELEASE

New York State has provided Genesee County with free COVID-19 test kits and KN95 masks to distribute to residents.

Starting Tuesday, February 8, 2022, a limited number of test kits and masks will be available at town and village municipal buildings listed below during their regular business hours, while supplies last. Residents will be required to show proof of residency and should contact their local municipality for hours of operation and availability.

- Town of Alabama
- Town of Alexander
- Town of Batavia
- Town of Bergen
- Town of Bethany
- Town of Byron
- Town of Elba
- Town of LeRoy
- Town of Oakfield
- Town of Pavilion
- Town of Pembroke
- Town of Stafford
- Village of Alexander
- Village of Bergen
- Village of Corfu
- Village of Elba
- Village of LeRoy

- Village of Oakfield
- Genesee County Clerk's Office (15 Main St, Batavia)
- Genesee County Fire Training Center (7690 State Street Road, Batavia)

On Saturday, February 12, 2022, from 10:00 am to Noon, the City of Batavia Fire Department (18 Evans Street, Batavia) will host a drive-thru COVID-19 test kit distribution. Residents are asked to follow the directions posted at the front of the fire station when they arrive.

“The COVID-19 community transmission level is still high in Genesee County,” stated Paul Pettit, Public Health Director for Genesee and Orleans County Health Departments (GO Health). “We continue to encourage residents to use at-home COVID-19 tests after a possible exposure to someone with COVID-19 or when they exhibit symptoms of COVID-19.”

### **To report a Positive At-home Test:**

Individuals can visit the [GO Health website COVID-19 Testing page](#) under Emerging Issues ([GOHealthNY.org](#)) and choose the appropriate Home Test button for their respective county. Individuals should complete the at-home tests according to the directions provided. When the test is completed, individuals should take a picture with the individual's name, the date and the time they took the test legibly written in permanent marker within 15 minutes of reading the test. Towards the end of the online form, the individual will be required to upload the picture on the website and attest to the authenticity and truth of the form. If there are any missing sections that are required, the form is invalid. At this time, individuals do not need to report negative at-home test results.

Anyone who tests positive for COVID-19 is to self-isolate immediately. You may not be contacted regarding your contacts, so it is important to notify your close contacts (those who you spent 15 minutes or more in a 24 hour period 2 days prior to symptoms or 2 days prior to a positive test result). It is important to continue with self-isolation from household members as much as you are able. Isolate for 5 days and if you are fever-free for 24 hours without fever-reducing medication, your symptoms are getting better, and you can tolerate a tight-fitting mask you can return to work/school but you are still required to wear a tight-fitting mask for 5 more days. If you must share space, make sure all in contact with you are wearing masks covering their nose and mouth and frequently shared items/surfaces are sanitized often. To access isolation orders and isolation release paperwork visit our website at [GOHealthNY.org](#) (COVID-19 Isolation & Quarantine Documents & Information) and complete and print out or print and hand write the forms from the county you reside in and provide to your employer or school.

Residents can sign up for an upcoming COVID-19 vaccination clinic to receive their first dose, booster shot, or pediatric dose at the GO Health website at <https://bit.ly/GOHealthCOVID>.
