FOR IMMEDIATE RELEASE

Dog Bite Incident

The Genesee County Health Department is seeking information about the location of a dog and its owner(s) following a dog bite incident on Saturday, September 10, at 10:30 p.m. The incident occurred on Lake Street in the Village of LeRoy.

An individual was trying to identify a stray dog from their backyard so that they could contact the dog's owner, when the dog approached the individual and bit him on his right index finger. The dog was described as an adult male, yellow Labrador with a white chest and a black collar with a tag.

It is important to locate the dog to determine whether or not it is current on its rabies shot. If the health status is not identified, post-exposure rabies shots will be offered to the victim.

If you have information about the location of the dogs and its owner(s), please contact the Genesee County Health Department at 585-344-2580 ext. 5555.
