FOR IMMEDIATE RELEASE

Dog Bite Incident

The Genesee County Health Department is seeking information about the location of a dog and its owner following a dog bite incident on Saturday, October 26th around 6:00pm. The incident occurred at the Genesee County Park located at 11095 Bethany Center Road in East Bethany, NY.

The dog involved in the incident was running loose in the park and was described as a medium sized, short haired, black dog with a white spot under its chin and paw. The dog was a possible Labrador mix and had a collar with a tag.

The health department would like to locate the dog as soon as possible to confirm that it is healthy. This would indicate that the rabies virus would not have been transmitted at the time of the bite.

If you have information about the location of the dog and its owner, please contact the Genesee County Health Department at 585-344-2580 ext. 5555.
