Water Supply/Sewage System: Check "public" if the facility is serviced by a municipal or public system. Check "private" (onsite) if the system(s) and its operation is onsite and only for this facility. A water/sewage system that is commonly used by several establishments (i.e.: a mall operation) would be a public system.

Operations under this registration: Provide the number of specific operations that apply to this registration. Complete even if the primary or main operation of the facility was identified under the facility type. A swimming complex with one spa, one beach, one indoor and two outdoor pools would report a facility type swimming pool-indoor and enter 1 for spa, 1 for bathing beach, 1 for indoor pool and 2 for outdoor pools in the operations under this registration Section A. For tanning facilities enter the number of beds and booths. Some facilities with multiple operations require separate applications, (i.e., a food service operated at a swimming pool complex would require a separate swimming pool and food service application, and would report their specific operations on the appropriate application forms).

Expected Opening/Closing Date: Enter the expected opening and closing dates (i.e., June 1 is 06/01). If the operation is year-round, enter 01/01 for opening and 12/31 for closing.

Days of Operation: Check each box for the day(s) the facility will be open under routine operation.

Hours of Operation: Enter the hour the facility is expected to open and close under routine operation. Circle AM or PM as appropriate.

SECTION B: Operator/Owner Information

Name of Legal Operator or Operating Corporation (Person in Charge): Enter name of the legal entity that operates the facility. If the facility is operated by a corporation, enter the name of the operating corporation and the name of the person in charge of the day to day operation. Provide the name(s) of the corporate officers/partners in Section F.

Permanent Address of Operator and Telephone Number: Enter the mailing address including street, city, state and zip code where the legal operator wants to receive mailed correspondence. Enter the telephone and fax number of the legal operator.

Employer Identification/Social Security Number: Enter the **Employer Identification or Social Security Number** of the operator of the facility.

Email Address and Fax No.: Enter the email address and fax no. where important health and safety alert messages should be sent during an emergency.

Name of Owner: Enter the name of the owner of the facility if different from the operator.

Permanent Address of Owner and Telephone Number: Enter the mailing address and telephone number of the owner if different from the operator.

SECTION C: Complete only for temporary food service establishments, regulated under Subpart 14-2 NYSSC

SECTION D: Complete only for mobile food service vehicles or pushcarts, regulated under Subpart 14-4 NYSSC

Check the appropriate type of unit. If motorized, provide the license plate number. Provide the name and address of the commissary where the food is prepared. Attach a separate list of the types of food(s) and/or beverages to be served.

SECTION E: Complete only for food/beverage vending machines, regulated under Subpart 14-5 NYSSC

Attach a list of the number and type of food dispensing machines including the address and telephone number of each site under this permit.

SECTION F: Partners and Corporation Officers

If a facility is operated by a partnership or corporation, provide the name, title, permanent mailing address and telephone number of all corporate officers or partners involved in the operation or ownership of the facility.

SECTION G: Workers' Compensation and Disability Insurance

Provide copies of appropriate forms documenting compliance with the Worker's Compensation Law for (1) both Workers' Compensation and New York State Disability Insurance coverage, **or** (2) exemption from coverage.

SECTION H: Signature

Provide the signature of the individual operator, a corporate officer or other authorized identified official in Section F. Please print the name, title and date in the space provided. **Failure to sign the form may delay issuance of your permit to operate. Operation without a valid permit is a violation of the State Sanitary Code and is punishable by fines.**

Complete all items that apply to your establishment (all applicants must complete Sections A, B, G and H), sign on the back page and return with the appropriate fee at least 30 days prior to the expected opening date to:

Content and Format of Plans and Specifications

1. Provide plans that are a minimum of 11 x 14 inches in size including the layout of the floor plan accurately drawn to a minimum scale of $\frac{1}{4}$ inch = 1 foot. This is to allow for ease in reading plans.
2. Include: **proposed menu**, seating capacity, and projected daily meal volume for food service operations.
3. Show the location of all food equipment. Each piece of equipment must be clearly labeled on the plan with its common name. Submit drawings of self-service hot and cold holding units with sneeze guards.
4. Designate clearly on the plan equipment for adequate rapid cooling, including ice baths and refrigeration, and for hot-holding potentially hazardous foods.
5. **Label and locate separate food preparation sinks** when the menu dictates to preclude contamination and cross-contamination of raw and read-to-eat foods.
6. Clearly designate **adequate hand washing lavatories** for each toilet fixture and in the **immediate area of food preparation**.
7. Provide the room size, aisle space, space between and behind equipment and the placement of the equipment on the floor plan.
8. On the plan, represent auxiliary areas such as storage rooms, garbage rooms, toilets, basements and/or cellars used for storage of food preparation.
9. Include and provide specifications for:
 - a. Entrances, exits, loading/unloading areas and docks;
 - b. Complete finish schedules for each room including floors, walls, ceilings and coved juncture bases;
 - c. Plumbing schedule including location of floor drains, floor sinks, water supply lines, overhead waste-water lines, **hot water generating equipment with capacity and recovery rate**, backflow prevention, and wastewater line connections;
 - d. Food equipment schedule to include make and model numbers and listing of equipment that is certified or classified for sanitation by an ANSI accredited certification program (when applicable);
 - e. **Source of water supply and method of sewage disposal**. Provide the location of these facilities and submit evidence that state and local regulations are complied with;
 - f. **A mop sink or curbed cleaning facility** with facilities for hanging wet mops;
 - g. **Grease trap specifications**;
 - h. **Garbage can washing area/facility**;
 - i. **Cabinets for storing toxic chemicals**;
 - j. Dressing rooms, locker areas, employee rest areas, and/or coat rack as required;
 - k. Site plan (plot plan).

Part 1 – Menu

The menu is an integral part of the Plan Review Process. The menu or a listing of all the food and beverage items to be offered at the food service establishment must be submitted by the applicant to the regulatory authority with the submission of all other Plan-Review application documents.

*All food needs to come from an inspected and approved source.

The menu for a food service establishment dictates the space and equipment requirements for the safe preparation and service of various food items. The menu will determine if the proposed receiving and delivery areas, storage area, preparation and handling areas, and thawing, cooking, and reheating areas are available and adequate to handle the types and volumes of food being served.

1. **SCRAPE AND PRE-RINSE** with warm water from a spray type nozzle all dishes and utensils promptly before food can dry on them. Keeps the wash water free of large food particles. Loosens dried-on foods. Reduces stains on dishes. Saves detergent.
2. **WASH** in first compartment with warm water at $110^{\circ} - 120^{\circ}\text{F}$ using a good washing compound, brush, and "elbow grease." Washing compound does not sanitize utensils.
3. **RINSE** utensils in second compartment by immersion in clean, warm water. Washing compound is rinsed off. Change the rinse water frequently. Do not rinse dishes in dirty water.
4. **SANITIZE** utensils in 3rd compartment by use of hot water or a chemical sanitizer. Rinse utensils, making use of a long handled wire basket, in clean hot water at a temperature of at least 170° for no less than a $\frac{1}{2}$ minute. Auxiliary heat is necessary. An alternate method is utensil immersion for at least one minute in a sanitizing solution containing at least 50 ppm available chlorine at a temperature of at least 75° .
5. **DRAIN AND AIR DRY.** Do not towel. Toweling contaminates utensils. Store utensils, glasses and cups (inverted) in a clean, dry place.
